Lincoln and Washington
And Don't Forget Edison
A \$10,000,000 Racket
Imitation Ice Age

By Arthur Brisbane

HAD LINCOLN lived until now this would be his 120th birthday. Men have lived beyond that age, but not one that lived as Lincoln did, giving to the world's welfare everything in him, and in the end life itself.

This country possesses two great men, that stand apart, Washington and Lincoln. Beside them all others are as footills beside mountain peaks. It is doubtful that any nation could produce in a dozen centuries or more of history the equals of Washington and Lincoln, born less than 50 years apart.

Alexander, Caesar, Napoleon may have excelled Washington in military genius. They did not surpass him in courage or equal him in character or useful work. As for Lincoln, whose birthday this is, no name stands above his.

Thomas A. Edison, 82 yesterday, hopes soon to have rubber growing commercially in the United States. This country would be much obliged if he could plant a tree that would produce a few more Edison.

The grand old man, whose immortality of usefulness is safe for all time, says, "I don't have anyone who is happy." Certainly not. To be happy means to keep trying. While Providence keeps us happy, and at work. Natives of the Gaboon country, crouching beside a dead hippopotamus are all happy, but not useful.

Mr. Edison found 1200 plants producing rubber, and will cultivate 40 of them.

Some day a chemist will announce a synthetic formula that will make the 1200 plants unnecessary.

Yesterday Mr. Edison had invited to luncheon Herbert Hoover, Henry Ford, Harry Firestone, and other interesting American party self-made men. What country will make that foursome?

Speaking of Americans, it appears that their numbers from almost everywhere, more rapidly than is generally known. Mr. Cyrus H. K. Curtis, manufacturer of cameras, states "that every year nearly a million new immigrants are coming to this country."

More than 1,000,000 emigrants have come in legally, since the quota law was passed in 1924. This "emigrant" smuggling racket yields \$10,000,000 a year profit.

An imitation of the ancient ice age afflicts Europe, from Scandinavia to the Balkans. Many towns are frozen in, threatened with food and fuel shortages. Scores of ships are held in a Baltic ice jam. Ogradsko, a Yugoslav Mohammedan town, was buried under snow for nine days. Troops finally freed the town inhabitants.

Denmark, Germany, Greece and Turkey have suffered. Two skaters crashed from a park to a pond. Twelve hundred miles of the Danube River have been frozen and blocked with ice. Those who have come down that river from Vienna to Budapest can realize that the cold must have been: lowest temperature since 1860.

With all our complaining we have great cause for gratitude. Think of Florida, California, Georgia, and the whole Gulf coast.

Mexican revolutionists evidently plan continuous war against the Mexican Government and its religious laws. An attempt to bomb the train of Porfirio Gil, Mexican president, was followed by discovery of an exploded bomb in the headquarters of Aaron Sazo, national revolutionary presidential candidate.

The King is better, recovering strength at the seaside. The Prince of Wales, photographed recently in a heavy coat, was out in the weather, talking to thirty child labor miners out of work, will sell his numbers and newspapers and give up racing.

Some British Tories dislike to see the prince make his peace with the "lower classes," especially when they are out of work. They will keep him happy and on the ground, the people will be grateful.

Lincoln, our price of young men, was dying over Honduras yesterday, a morning returned from Panama. There is a rumor that a man is an inspiration for every boy who asks "What opportunity has a young man now?" If Mr. Hoover will find for Col. Lindbergh work that will keep him busy and on the ground, the people will be grateful.

HOOVER DROPS MILLS TO TELL FISHING; BACK PLAN FOR MORE 'DRY' FUNDS

Washington, Feb. 12 (AP)—An estimate of how much additional money could be used at this time by the prohibition and customs bureau to function more effectively will be submitted to the House appropriations committee tomorrow by Under Secretary Mills.

The committee requested the estimate after the House had refused to approve an additional \$250,000 appropriation for the prohibition enforcement inserted in the deficiency appropriation bill by the Senate.

NOVE FOR COAST GUARD. The figures will not include any additional appropriation for the Coast Guard service, Mr. Mills said, because none is needed at this time.

He explained that when the appropriations for prohibition and customs bureau were made for the year, they were cut drastically because of instructions that appropriations for 1929 must be kept within the limits of the 1928 appropriations. As a result, he said, the activities of both the prohibition and customs bureaus were curbed but he has reversed figures to show how additional funds can be used.

PRaises HENLEY KIMBALL CO. FOR RECORD

Courtney Johnson, general sales manager for the Hudson-Essex Co., who came from Detroit to congratulate the Henley-Kimball Co. New England distributors for Hudson-Essex, on their record, in an interview at the company's Kenmore St. office cited several factors which he believes will create a peculiar situation in the automobile industry for the coming year.

Johnson predicts keen competition between automobile manufacturers in 1929. At present, he says, there are at least a dozen men in a field who could flood the automobile market within a short time with a number of cars far in advance of the demand. That these concerns will put as many of their cars upon the market as they can expect to sell is a foregone conclusion. Naturally, with such a surplus of product, some firms are bound to suffer, he claims.

Johnson says that the Hudson-Essex management saw the situation far in advance and took steps to meet it by furnishing the public with exactly what it wants in the way of a motorcar.

According to Johnson, the Hudson-Essex company, by reason of its great assets, quick turnover and immense volume of production, can operate at lower prices and still be assured of a comfortable margin of profit.

Johnson was strong in his praise of the Henley-Kimball Co., feeling it one of the foremost distributing concerns throughout the nation. If other concerns had followed their lead, he says, there would be no such auto-industry hardship, no over-production and no car problem.

Johnson predicted success to those concerns which followed the lead of the Hudson-Essex company in giving the public a satisfactory product.

"The American car owner," he said, "has become thoroughly motor-wise; the day is past when an unsatisfactory product can be forced down his throat; we must give him what he wants or fail tremendously through our own shortsightedness."

State to Rebuild Mohawk Trail

White Plains, N. Y., Feb. 12 (AP)—Gail is alleged to be a cause of the estrangement of Mr. and Mrs. Sterling Parker Delano. Mrs. Delano's counsel, in arguments in court, said she was suing for separation because of the husband's desire to be on the links all day and forget his family.

Stribling Says He Will Surprise Jack Sharkey

W. P. Stribling Jr.

GREATER MIAMI, Fla., Feb. 12.—Jack Sharkey and his manager insist that I'm just "a fresh kid from the South" who is going to get "this" on February 21—and plenty of it.

The dear boys are all wrong.

I was born in Scotland, and I have been in the United States for many years. I have fought many fights, and I have won many of them. I am not a fresh kid from the South, and I am not going to get "this" on February 21.

But some years ago one of the great fighters of the world, Jack Sharkey, was in the United States. He was a great fighter, and he was a great man. He was a great fighter, and he was a great man.

Cochrane Likes Chances of Tigers

By JOE CASHMAN

'Keep your eyes on Detroit in the coming American League race.'

The Detroit Tigers are the team to watch in the coming American League race. They are a great team, and they are a great man.

The Athletics should get off to a better start than last season and be in the thick of the fight all season, was still another.

It will be a long season, but I am sure that the Athletics will be a great team, and they will be a great man.

COUGARS CLAW EX-MATES IN GARDEN DEN

Sailor Jim and Cooper were favorites with the Boston fans when they wore Bruin uniforms. And the crowd cheers their sparkling play now that they are with the Detroit Cougars. This duo has been responsible for the good showing of the Detroit team recently. When they get a chance to team up there is not much chance to stop them.

FRANK ULRICH, PHILS' PITCHER, IS DEAD

Baltimore, Feb. 12.—Frank Ulrich, 30, a regular pitcher with the Philadelphia Nationals, was dead at his home here today, a victim of pneumonia.

Ulrich was out of the game most of last season. Just a year ago today he contracted pneumonia, and although he recovered he was not strong enough to engage in much play last year. Ten days ago he again contracted pneumonia.

His last year was 1932 when he won 8 and lost 11 games with the Philadelphia Nationals.

Sharkey Popular With Miami Folk

By JACK CONWAY

Miami Beach, Fla., Feb. 12.—When Jack Sharkey left Boston for his bout with Young Stribling here on February 27 he was warned to beware of the Ku Klux Klan.

His friends told him he was making an unwise move in agreeing to battle Stribling in a Southern ring.

Godfrey, Delaney and Malone's last case Delaney, the name of his life should be able to conquer Stribling.

PROTEST AT B.U. FEW SEATS LEFT ON NEW RULING ON 'SPECIAL'

The elimination of all future elections of officers of various sports associations at the appointment of different leaders for every game by the athletic council at Boston University has not met with the approval of some students and a meeting of letter men will be held at the college of business administration Thursday to take steps to resist the matter. The reason for the banning of future elections as stated by the council on athletics is that the existing policy is too important a part in the life of the college and that the right man is not always selected. The greatest difficulty in the past has been to get the captain elected to be approved by the council. In several instances elections have been delayed unduly and held over as long as six months.

As yet the athletic council has prohibited the holding of a football election and because of the new ruling the football team is without a leader for next fall. The B. C. officials did not expect Duffy to call out his men until the 20th but the Duke mentor advised to get under way a week earlier making it the first game is to be held for the 20th of March. When the first regulations will be completed and the B. C. ball game will start warming up next Monday on a campaign that has the brightest outlook of any in recent years.
